

Pride month – June 2024

Home-learning activity.

To celebrate Pride month, we would like to create a Pride wall in our school. The wall would include pictures and statements from the children in our school community and why they are either proud of themselves or friends and family.

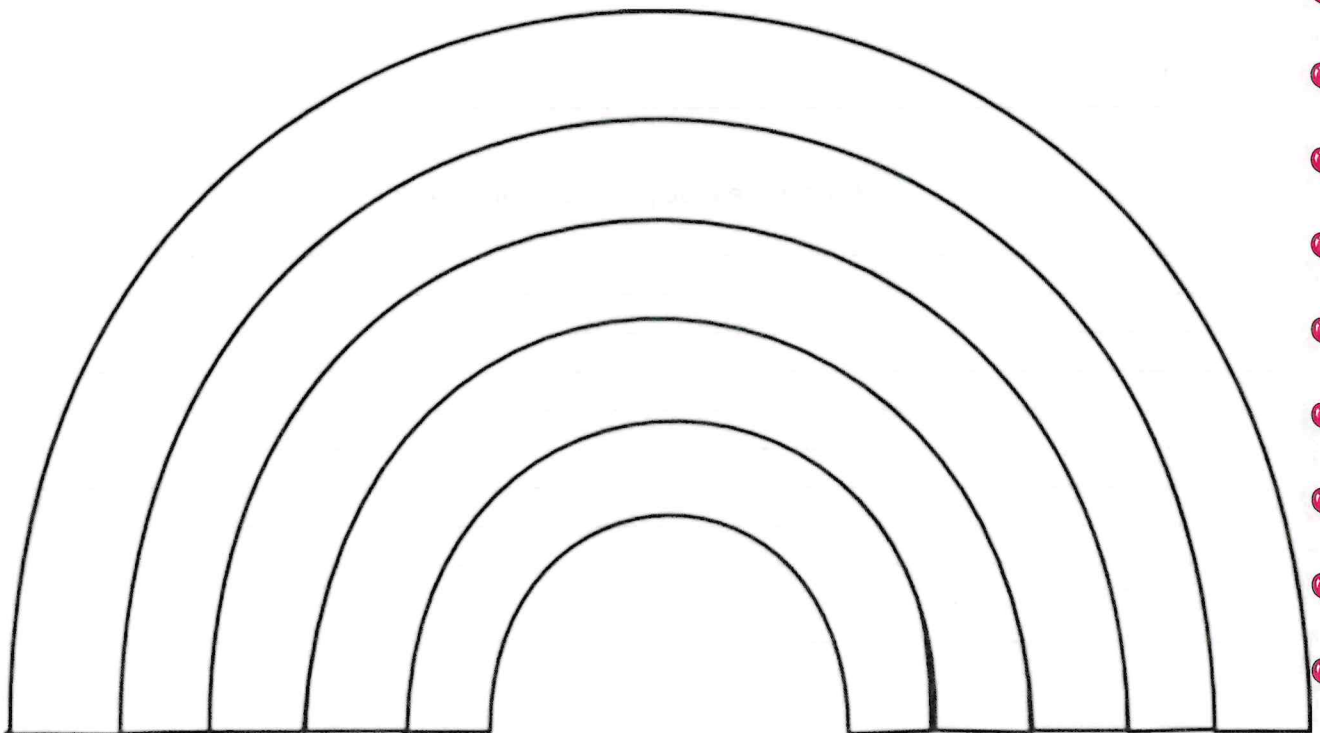

Please complete either of the activities below and hand into your class teacher before Friday 21st June.

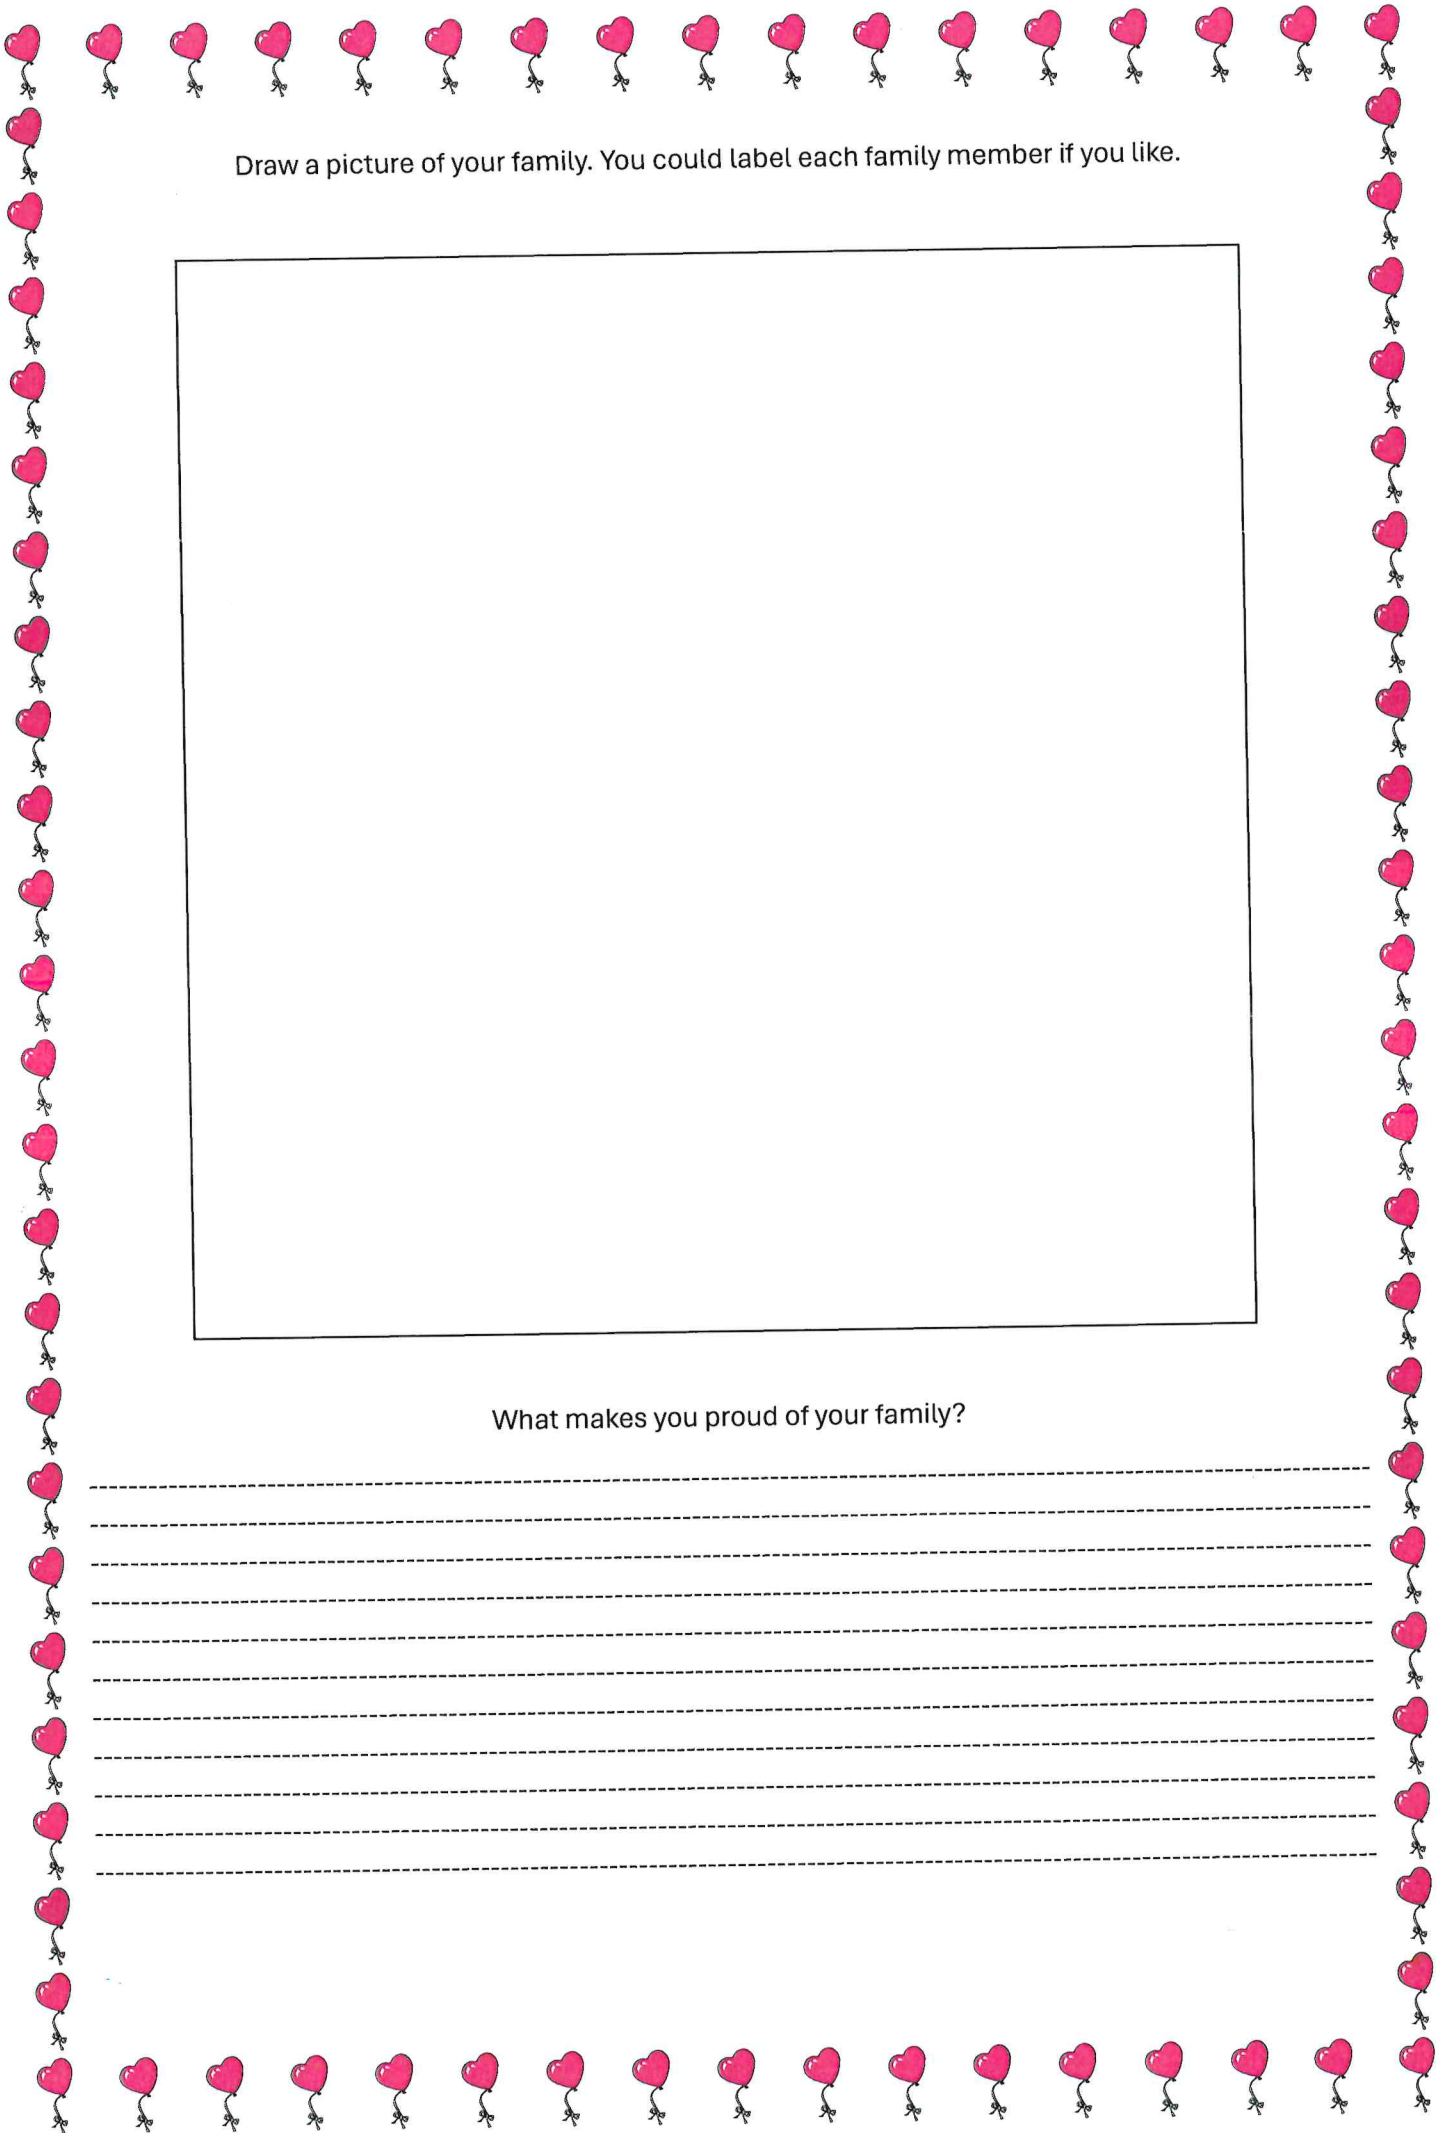

Every person is unique.

We all have our own qualities, interests and skills that make us special.

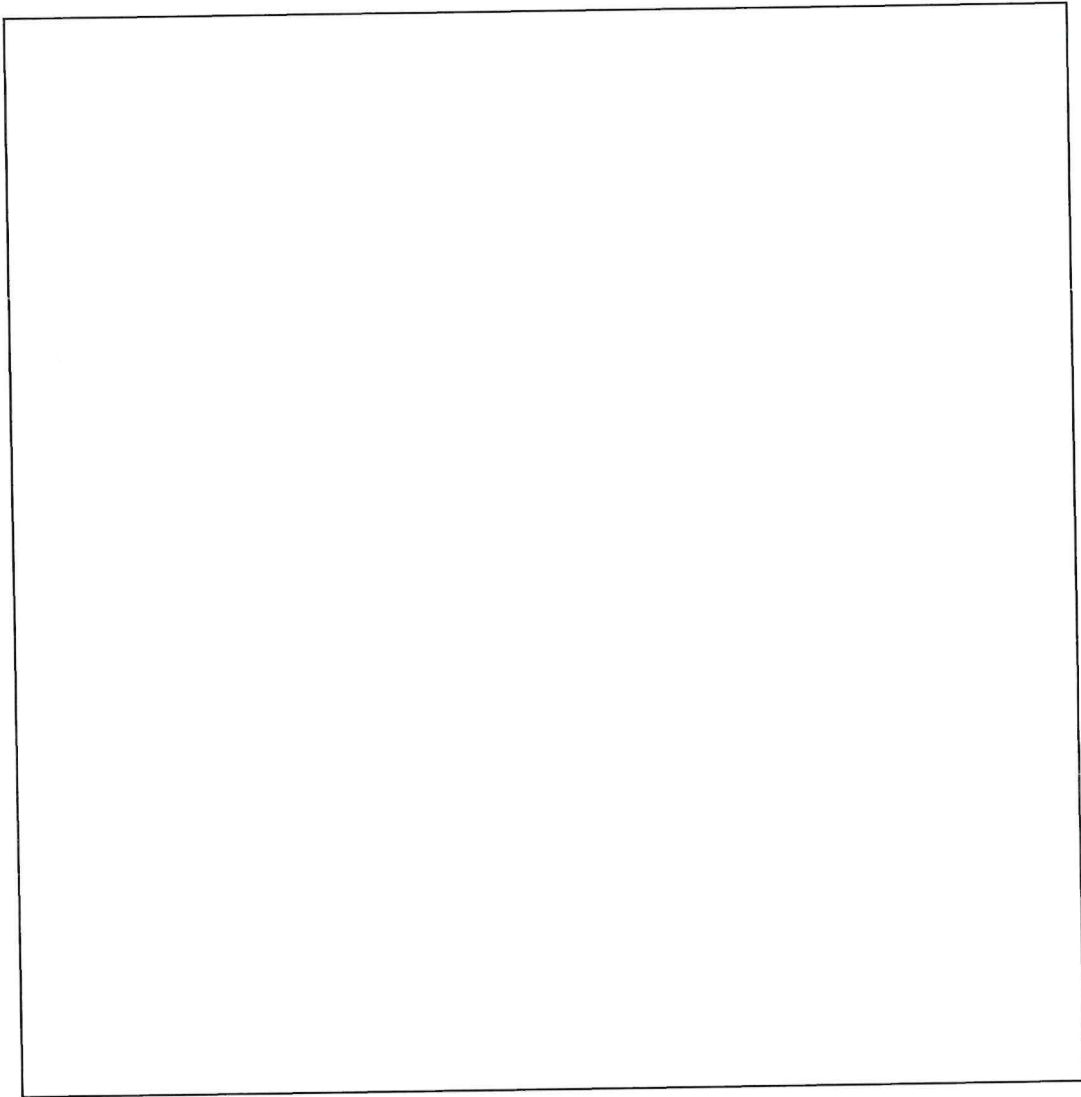

There is no such thing as normal!

What makes you unique? Celebrate being you by writing or drawing your qualities, interests, and skills in this rainbow. You could even cut and stick pictures into the different sections.

Draw a picture of your family. You could label each family member if you like.

What makes you proud of your family?
