Dear Parents/Carers

We have recently been contacted by residents and businesses adjacent to the school regarding parking when dropping off and picking children up from school. One business in particular has reported that parents/carers are parking in their staff carpark which has resulted in deliveries to the business being aborted due to lorries physically being unable to turn into the carpark and the remainder having to unload on the road. This presents safety problems for both the company in question, pedestrians and residents.

We ask that you please park respectfully when dropping children off at school and do not obstruct driveways and business premises.

Kind regards

Norbridge Academy
